

TECHNICAL DATA SHEET

Bentonite Based Drilling Fluid
Additive

MUD THINNER

BENTONITE MUD REMOVER

DESCRIPTION

Mud Thinner is an efficient mud thinner that breaks down wall cake, disperses clay, and cleans-up slurry. The effect is immediate and cost effective.

APPLICATION

Mud Thinner is used as bentonite based drilling fluid additive that promotes cleanup and thinning of drilling mud.

RECOMMENDED USAGE

Add 1 to 2 pints of **Mud Thinner** per 100 gallons of slurry.

PACKAGING

Available in 5gallon pails.
